RE: Request for Agency Action  
Docket No. 2013-012  
Cause No. 139-103

Ladies and Gentlemen,

Bill Barrett Corporation ("BBC") owns oil and gas leasehold interest within and adjacent to the "Subject Area" that is defined in the above captioned Request for Agency Action as proposed by Newfield Production Company. BBC supports Newfield's Request for Agency Action as set forth in Docket No. 2013-012, Cause No. 139-103. The proposed 1,280 acre Pilot Spacing Units for the Wasatch formation is attractive to BBC because the efficient long reach lateral leg of the well offers prevention of waste, less surface disturbance, and reduction of traffic as opposed to the current 640 acre spacing scenario in which two wells would be drilled. BBC believes a 1,280 acre drilling spacing unit will prove to be successful and efficient in the Uinta Basin.

Please notify my office if you have any question or require any further information.

Sincerely,

David Watts  
Landman
